PROFESSIONAL SUMMARY

Electronics and Communication Engineering (ECE) undergraduate with strong foundations in Python, Java, SQL, and programming fundamentals. Hands-on experience through a Python Developer internship, with practical exposure to software development, problem-solving, and database concepts. Quick learner with strong analytical and communication skills, passionate about building reliable software solutions and continuously expanding technical expertise in modern technologies.

Madanapalle Institute of Technology and Science B.Tech in Electronics and Communication Engineering, CGPA: 8.86	2022–2026
Sri Venkateswara Junior College Intermediate (MPC), 91.9%	2020–2022
Sri Siddartha Vidyanikethan English Medium High School SSC, 81.16%	2019–2020

TECHNICAL SKILLS

Programming: Python, HTML, CSS, JavaScript
Databases: MySQL, SQL
Tools: Excel, NumPy, Pandas, Jupyter Notebook, VS Code
Core: OOPS, DBMS

INTERNSHIP EXPERIENCE

Python Full Stack Development Intern — KodNest Technologies	June 2026–Present
• Learning frontend and backend technologies. • Working with databases and real-time web applications. • Gaining hands-on experience in software development.	

PROJECTS

Employee Management System
• Developed an Employee Management System using Python. • Added features to add, update, delete, and search employee records. • Used SQLite to store and manage employee information efficiently.
Power and Timing Optimization of FinFET-Based RISC-V Core
• Designed and optimized a FinFET-based RISC-V processor core using Verilog HDL and Cadence EDA tools. • Performed synthesis, placement, routing, and timing analysis to reduce power consumption and improve circuit performance. • Evaluated timing and power metrics to achieve an optimized and efficient VLSI design.

CERTIFICATIONS

- Joy of Computing Using Python – NPTEL
- Python Programming and SQL – ExcelR
- HTML and CSS Fundamentals – Cursa
